Required Technology Information Sheet

Project Nurse

- What is it?
  - Skills tracking and clinical evaluation software.
- How do I get it?
  - You will authorize payment within the software. You will receive information regarding log-in and use of the software the first week of school.
- Where will I use it?
  - In clinical and skills labs throughout the program. You will track your clinical patient experiences and the skills you perform. Your clinical evaluations will also be processed through this software.
- How much does it cost?
  - ~$100

Square Cap

- What is it?
  - Classroom response system.
- How do I get it?
  - It is purchased online.
- Where will I use it?
  - In lecture courses throughout the program; it’s used to answer questions electronically during lectures.
- How much does it cost?
  - ~$18/year

ATI

- What is it?
  - Test prep for NCLEX. Includes live review session at the end of the program.
- How do I get it?
  - Payment is made online directly through ATI. ATI training will be delivered within the first two weeks of classes.
- Where will I use it?
  - Throughout the program, you can utilize the practice questions. At the end of most courses, you will take a cumulative exam for that course content through ATI.
- How much does it cost?
  - $979.88 – You will make four payments of approximately $244.97. Payments are due by the first week of the semester.
