

MPH Health, Safety and Environment

Concentration: Health, Safety & Environment (Code: HLE)

Delivery: Online

The Health, Safety, & Environment concentration will provide a strong foundation for students to advance their careers by providing the knowledge and skills necessary to address the complex and evolving regional, national and global challenges related to Health, Safety and the Environment (HSE). All courses in this concentration are offered online and there is a required ten day capstone experience on campus in Tampa, Florida at the conclusion of coursework. This program is intended to appeal to experienced working professionals anywhere in the world who seek to broaden their understanding of the interrelatedness of these three key areas. The fundamentals of exposure assessment and analytical methods will lay the groundwork for topics that include the basics of the persistent worldwide issues of air and water quality, solid and hazardous wastes, worker safety, legal requirements, and effective management. The impact of health, safety and the environment topics will be addressed for developed and less developed countries. Students will have the opportunity to develop a major emphasis in an area of their choice.

Program of Study

You should complete your program of study electronically using Archivum at usf.appiancloud.com/. (See [Archivum Instructions](#).)

Program of Study PDF by Catalog Year (to be used as reference)	2019/20	2018/19	2017/18	2016/17	2015/16	2014/15	2013/14	2012/13

Note: You may choose a program of study that corresponds to the academic year of your admission or any year thereafter. Please see the guidelines below.

▼ [USF Guidelines on Choosing a Program of Study](#)

The USF Tampa Graduate Catalog, including college and program requirements, and program and course descriptions, is available on the web at www.grad.usf.edu/catalog.php. Each Catalog is published and in effect for the academic term(s) noted on the title page.

Student's Program Degree Requirements

In order to graduate, students must meet all requirements specified in the USF Catalog of their choice, except as noted below. As the University is dynamic, changes and updates to the catalog are anticipated. In contract to major requirements, which are tied to a specific catalog, all students must comply with University policies and procedures that come into effect each catalog year.

- Students cannot choose a USF Catalog published prior to admission (or readmission) or during an academic year in which they did not complete at least two terms. If a student is dropped from the system and must be reinstated, the student's choice of Catalog is limited to the USF Catalog in effect at the time of readmission or any one Catalog published during their continuous re-enrollment.
- If state law or certification requirements change, the student must comply with the most current standard or criteria.
- If the College or Department makes fundamental changes to the program that necessitates changes in the degree requirements of enrolled students, the needs of those students will be explicitly addressed in the proposal for change and scrutinized by the Office of Graduate Studies.
- USF policies and procedures not related to degree requirements such as academic grievance procedures, student conduct code and other procedural processes and definitions may be updated each year and the student will be held to the most current catalog and procedures available.
- USF does not commit itself to offer all the courses, programs, and majors listed in this Catalog. If the student cannot meet all of the graduation requirements specified in the Catalog of choice as a result of decisions and changes made by the University, appropriate substitutions will be determined by the program to ensure that the student is not penalized.
