

MPH Biostatistics

Concentration: Biostatistics (Code: BST)

Delivery: Traditional

Concentration was terminated effective fall 2018.

The Biostatistics concentration provides educational opportunities for students to acquire a broad knowledge in biostatistics and apply biostatistical methods to public health problems. The MPH concentration emphasizes the applications of quantitative methods to a broad range of public health problems. The intended audience of the program includes individuals with strong quantitative background and interests in a professional career in a public health setting. The concentration trains students to be able to design studies, to implement data collection and management plans, to formulate analysis plans and conduct analysis, and to report and communicate analytical results. The concentration will also provide students with knowledge in statistical and computational methods and public health.

Program of Study

*You should complete your program of study electronically using Archivum at usf.appiancloud.com/. (See *Archivum instructions*.)*

Program of Study PDF by Catalog Year (to be used as reference)	2017/18	2016/17	2015/16	2014/15	2013/14	2012/13	2011/12

Note: You may choose a program of study that corresponds to the academic year of your admission or any year thereafter. Please see the guidelines below.

▼ [USF Guidelines on Choosing a Program of Study](#)

The USF Tampa Graduate Catalog, including college and program requirements, and program and course descriptions, is available on the web at www.grad.usf.edu/catalog.php. Each Catalog is published and in effect for the academic term(s) noted on the title page.

Student's Program Degree Requirements

In order to graduate, students must meet all requirements specified in the USF Catalog of their choice, except as noted below. As the University is dynamic, changes and updates to the catalog are anticipated. In contrast to major requirements, which are tied to a specific catalog, all students must comply with University policies and procedures that come into effect each catalog year.

- Students cannot choose a USF Catalog published prior to admission (or readmission) or during an academic year in which they did not complete at least two terms. If a student is dropped from the system and must be reinstated, the student's choice of Catalog is limited to the USF Catalog in effect at the time of readmission or any one Catalog published during their continuous re-enrollment.
- If state law or certification requirements change, the student must comply with the most current standard or criteria.
- If the College or Department makes fundamental changes to the program that necessitates changes in the degree requirements of enrolled students, the needs of those students will be explicitly addressed in the proposal for change and scrutinized by the Office of Graduate Studies.
- USF policies and procedures not related to degree requirements such as academic grievance procedures, student conduct code and other procedural processes and definitions may be updated each year and the student will be held to the most current catalog and procedures available.
- USF does not commit itself to offer all the courses, programs, and majors listed in this Catalog. If the student cannot meet all of the graduation requirements specified in the Catalog of choice as a result of decisions and changes made by the University, appropriate substitutions will be determined by the program to ensure that the student is not penalized.
