

# MSPH Environmental and Occupational Health

## Important Catalog Information

Due to the planned consolidation during the summer of 2020, of the University of South Florida, the University of South Florida St. Petersburg, and the University of South Florida Sarasota-Manatee, into a single university with a fully aligned and integrated curriculum and a single set of academic policies and procedures, any undergraduate or graduate student who matriculates at one of the three USF institutions on or after May 18, 2020, will adhere to the curricula, policies, and procedures described in the 2020-21 USF undergraduate or graduate catalog, respectively.

**Concentration:** Environmental and Occupational Health (Code: EOV)

**Delivery:** Traditional

Students in the Master of Science in Public Health (MSPH) concentration in Environmental and Occupational Health (EOV) gain a broad perspective in the foundational public health sciences, and advanced, in-depth, technical education in the sciences related to the impact of the environment and occupation on human health and well-being. The development of research skills and an understanding of how to interpret and present research results are important aspects of this MSPH concentration. Students in this concentration will take courses that align to their area of interest, such as environmental health, air pollution, toxicology, occupational health and safety, and human health risk assessment. Students enrolled in this MSPH concentration are likely to be recent graduates of a biological science, environmental science or medicine undergraduate program; employees of county or state agencies; in a military education program; or involved in environmental health & safety management with a company. Our students generally are motivated to earn this advanced degree in order to become an environmental scientist or manager; or to increased competence as an environmental scientist or manager; or as pre-medical training, or to qualify and prepare professional certifications, or as a prelude to a doctoral program.

## Program of Study

If you have questions on your program, please contact your [Academic Advisor](#).

If you are a current student, you may access your [Degree Works](#) planner (you may also access Degree Works from [my.usf.edu](http://my.usf.edu) or OASIS. You may view your current progress in Archivum at [usf.appiancloud.com/](http://usf.appiancloud.com/). (See [Archivum instructions](#).)

If you are not a current student, or want to view program requirements from a different catalog year please use these sources:

- 2020/21 USF catalog [MSPH planner](#) or [COPH catalog section](#)
- 2019/20 USF catalog [MSPH planner](#) or [COPH catalog section](#)
- Any prior year please view the [USF Graduate Catalog Archives](#)

There may be circumstances in which a student may need to change their catalog year. This must be initiated through a discussion with your academic advisor. Details regarding USF policy on changing catalog year can be found at <https://catalog.usf.edu/content.php?catoid=12&navoid=1375#students-major-degree-requirements>.

## Current Competencies (beginning fall 2017)
