MSPH Genomics

Concentration: Genomics (Code: GEO)
Delivery: Traditional

The MSPH concentration in Genomics is designed for students who seek an individualized, research-oriented program. This concentration provides an intense research and technical program of study for science-oriented students with an interest in genomics. Individualized courses of study are determined for students with the cooperation of an advisory committee, which allows students to receive specialized training in a broad variety of genomics related topics that intersect with public health. This concentration focuses on preparing students to fulfill leadership and research roles that incorporate genomic technologies into research and practice settings in order to improve health and healthcare. Several course offerings and areas of emphasis allow for flexibility in tailoring a program that meets each students’ needs. The MSPH culminates with an independent thesis requirement which requires a substantial time commitment on the part of the student. The thesis work involves extensive one on one interaction between the student, their thesis advisor and their thesis committee. Preference for admission is given to students with a background or demonstrated skills in the biological sciences and a clear vision related to their educational and career goals.

Program of Study

If you have questions on your program, please contact your Academic Advisor.

If you are a current student, you may access your Degree Works planner (you may also access Degree Works from my.usf.edu or OASIS. You may view your current progress in Archivum at usf.appiancloud.com/. (See Archivum instructions.)

If you are not a current student, or want to view program requirements from a different catalog year please use these sources:

- 2020/21 USF catalog MSPH planner or COPH catalog section
- 2019/20 USF catalog MSPH planner or COPH catalog section
- Any prior year please view the USF Graduate Catalog Archives

There may be circumstances in which a student may need to change their catalog year. This must be initiated through a discussion with your academic advisor. Details regarding USF policy on changing catalog year can be found at https://catalog.usf.edu/content.php?catoid=12&navoid=1375#students-major-degree-requirements.
