MPH Epidemiology and Maternal and Child Health

Important Catalog Information
Due to the planned consolidation during the summer of 2020, of the University of South Florida, the University of South Florida St. Petersburg, and the University of South Florida Sarasota-Manatee, into a single university with a fully aligned and integrated curriculum and a single set of academic policies and procedures, any undergraduate or graduate student who matriculates at one of the three USF institutions on or after May 18, 2020, will adhere to the curricula, policies, and procedures described in the 2020-21 USF undergraduate or graduate catalog, respectively.

Concentration: Epidemiology & Maternal & Child Health (Code: EMC)

Delivery: Traditional

The Maternal and Child Health-Epidemiology concentration is a professional degree intended for individuals who want to pursue public health research and practice focused on the outcomes, determinants and health policies and programs impacting the health and well-being of women, children and families. The knowledge and skills obtained through the concentration will enable graduates to characterize the health status of culturally diverse and underserved communities, critically evaluate research on determinants of health-related events, formulate strategies to evaluate the impact of health-related interventions and apply epidemiologic methods for health promotion/disease prevention activities.
