PhD Environmental and Occupational Health

Concentrations: Environmental and Occupational Health (EOH)
Degree: Doctor of Philosophy in Public Health
Delivery: Traditional

The Environmental and Occupational Health PhD concentration is designed to develop researchers in this broad field (industrial hygiene, occupational health, environmental health, toxicology and risk assessment). Graduates of the doctoral program will be qualified to conduct fundamental and applied research in identification, evaluation and prevention of environmental and occupational health exposures and problems. The concentration offers a distinguished teaching and research program which provides a sound basis for doctoral study. Please review individual faculty web pages for an overview of faculty research interests.

Program of Study

If you have questions on your program, please contact the Doctoral Training Office at cophdoctoral@usf.edu.

If you are a current student, you may view your current progress in Archivum at usf.appiancloud.com/. (See Archivum instructions.)

If you are not a current student, or want to view program requirements from a different catalog year please use these sources:

- 2020/21 USF catalog PhD planner or COPH catalog section
- 2019/20 USF catalog PhD planner or COPH catalog section
- Any prior year please view the USF Graduate Catalog Archives

There may be circumstances in which a student may need to change their catalog year. This must be initiated through a discussion with your academic advisor. Details regarding USF policy on changing catalog year can be found at https://catalog.usf.edu/content.php?catoid=12&navoid=1375#students-major-degree-requirements.
