Concurrent Degree - MPH and Medicine MD

The University of South Florida, College of Public Health and the USF Health Morsani College of Medicine offer a MD/MPH concurrent degree to qualified applicants. The College takes a multidisciplinary approach to Public Health – exploring social, behavioral, legal, medical and economic factors affecting public health. Through classroom work, field experience and research projects, students and faculty tackle public health issues from the local level to global communities.

The MPH degree is a minimum of 42 credits in length and 9 credits are shared between the programs. Therefore, USF MD/MPH concurrent degree students will enroll in a minimum of 33 total College of Public Health course credits. Students in the five year joint MD/MPH degree program may begin the MPH portion of the program at any time prior to the beginning of their fourth year in the MD program. Students are strongly encouraged to begin their MPH studies the year prior to entering the USF Health Morsani College of Medicine.

Program of Study

If you have questions on your program, please contact your Academic Advisor.

If you are a current student, you may access your Degree Works planner (you may also access Degree Works from my.usf.edu or OASIS. You may view your current progress in Archivum at usf.appiancloud.com/. (See Archivum instructions.)

If you are not a current student, or want to view program requirements from a different catalog year please use these sources:

- 2020/21 USF Graduate Catalog MPH and Medicine MD concurrent degree section
- 2019/20 USF Graduate Catalog MPH and Medicine MD concurrent degree section
- Any prior year please view the USF Graduate Catalog Archives

There may be circumstances in which a student may need to change their catalog year. This must be initiated through a discussion with your academic advisor. Details regarding USF policy on changing catalog year can be found at https://catalog.usf.edu/content.php?catoid=12&navoid=1375#students-major-degree-requirements.
