

MPH Health, Safety and Environment

Important Catalog Information

Due to the planned consolidation during the summer of 2020, of the University of South Florida, the University of South Florida St. Petersburg, and the University of South Florida Sarasota-Manatee, into a single university with a fully aligned and integrated curriculum and a single set of academic policies and procedures, any undergraduate or graduate student who matriculates at one of the three USF institutions on or after May 18, 2020, will adhere to the curricula, policies, and procedures described in the 2020-21 USF undergraduate or graduate catalog, respectively.

Concentration: Health, Safety & Environment (Code: HLE)

Delivery: Online

The Health, Safety, & Environment concentration will provide a strong foundation for students to advance their careers by providing the knowledge and skills necessary to address the complex and evolving regional, national and global challenges related to Health, Safety and the Environment (HSE). All courses in this concentration are offered online and there is a required ten day capstone experience on campus in Tampa, Florida at the conclusion of coursework. This program is intended to appeal to experienced working professionals anywhere in the world who seek to broaden their understanding of the interrelatedness of these three key areas. The fundamentals of exposure assessment and analytical methods will lay the groundwork for topics that include the basics of the persistent worldwide issues of air and water quality, solid and hazardous wastes, worker safety, legal requirements, and effective management. The impact of health, safety and the environment topics will be addressed for developed and less developed countries. Students will have the opportunity to develop a major emphasis in an area of their choice.
