The Public Health Practice concentration is a college-wide interdisciplinary program designed to prepare experienced health professionals to assume leadership roles as members of multidisciplinary teams so that they are able to develop, implement, and evaluate programs that have an impact on the health of the public. The Public Health Practice concentration provides a broad spectrum of skills and knowledge important for effective health professionals working in public health settings. Students in the concentration will gain skills related to: public health practice; epidemiology; program analysis and inference from data; development of programs that take into account cultural, social, economic, ethical and legal factors; community-based health policy and program planning; and budgeting and management.

Master's Progression Policy

Review the progression policy for the MPH, MHA and MSPH.

Program of Study

If you have questions on your program, please contact your Academic Advisor.

If you are a current student, you may access your Degree Works planner (you may also access Degree Works from my.usf.edu or OASIS. You may view your current progress in Archivum at usf.appiancloud.com/. (See Archivum instructions.)

If you are not a current student, or want to view program requirements from a different catalog year please use these sources:

- 2020/21 USF catalog MPH planner or COPH catalog section
- 2019/20 USF catalog MPH planner or COPH catalog section
- Any prior year please view the USF Graduate Catalog Archives

Current Competencies (beginning fall 2019)
