MPH Epidemiology

Important Catalog Information

Due to the planned consolidation during the summer of 2020, of the University of South Florida, the University of South Florida St. Petersburg, and the University of South Florida Sarasota-Manatee, into a single university with a fully aligned and integrated curriculum and a single set of academic policies and procedures, any undergraduate or graduate student who matriculates at one of the three USF institutions on or after May 18, 2020, will adhere to the curricula, policies, and procedures described in the 2020-21 USF undergraduate or graduate catalog, respectively.

Concentration: Epidemiology (Code: EPY)
Delivery: Traditional or fully online (effective summer 2020)

The Epidemiology concentration is a professional degree, intended for individuals who wish to obtain a broad understanding of public health, with an emphasis on epidemiologic principles and methods. The knowledge and skills obtained through the concentration will enable graduates to characterize the health status of communities, critically evaluate research on determinants of health-related events, formulate strategies to evaluate the impact of health related interventions and foster the application of epidemiologic methods for health promotion/disease prevention activities at the community level. The concentration can be offered in traditional format as well as online.
